	Urgent	**Not Urgent**
Important	• Game Function: Random mine placement, Win/Loss • Neighbor count for every cell • Reveal a cell with input validation • Flood fill: revealing a 0 opens surrounding cells • Flag / unflag cells with `f row col`	• First reveal is never a mine • Difficulty levels (board size and mine count) • Play-again prompt • Mines-left counter
Not Important	• Colored numbers → colorama • Game timer → time module • Save best times to a file → json module • Board-size options from the command line → argparse	• Graphical version (pygame / tkinter) • Hint button / auto-solver • Leaderboard • Mouse-click support in the terminal
